Naples Area, Italy | +39 342 749 5801 | izzoalexandro917@gmail.com

PROFESSIONAL SUMMARY

Community & Digital Growth Specialist with hands-on experience building online communities from scratch, driving high-volume conversational sales, and leading AI-assisted digital projects end-to-end. Skilled at growing engaged communities, managing client relationships in high-intensity, fast-paced environments, and directing the development of digital products — from concept to public launch — using AI agentic tools. Seeking a full-remote role in community management, digital marketing, or AI-driven project coordination, open to international opportunities.

PROFESSIONAL EXPERIENCE

Live Chat & Customer Engagement Specialist — Digital Content Management Agency (Remote)

April 2026 – Present

- Manage simultaneous conversations with 1-2 clients per shift (5-hour shifts, 6 days/week), focusing on relationship-building, content sales, and reading client emotional cues to drive engagement.
- Generated over \$58,000 in personal revenue for the agency in approximately 5 months, tracked via internal dashboard.
- Entrusted with high-value client accounts, with total account revenue reaching up to \$100,000 per month.
- Independent contractor, compensated on a percentage of revenue generated.
- Informally mentor newer team members on chat management and sales conversation techniques.
- Tools: Infloww (multi-account chat management), proprietary agency web platform (scheduling, payouts, reporting).

Discord Server Specialist (Freelance) — Private Clients

2026 (Ongoing)

- Build professional Discord servers from the ground up: channel architecture, role structures, webhooks, information/rules channels, and automated role assignment.
- Configure bots for automated moderation, anti-raid security, language filters, mini-games, and welcome/boost-acknowledgment messages.
- Design community onboarding flows and produce base-level graphics (Canva).
- Acquired current client through direct referral following a previous Discord project for a content creator.
- In parallel, independently built a lead-generation and outreach pipeline (lead research, personalized email outreach, automated sending) to acquire new clients across Fiverr, Upwork, Freelancer.com, Malt, and Guru — active pipeline with 118 leads sourced and 105 contacted.

Founder & Community Manager — Personal Discord Community

September 2021 – Summer 2022

- Founded and managed a themed online community end-to-end, growing it from zero to approximately 4,000 active members within one year.
- Defined and executed a multi-channel growth strategy: cross-server partnerships and collaborations, vertical video content (Instagram, TikTok), advertising on themed pages and competitor servers.
- Organized recurring weekly and monthly events to sustain community engagement.
- Managed this initiative alongside a full-time position at Totex S.r.l.

Direct Marketer — Fundraising — Selkis S.r.l.s., Naples, Italy

October 2022 – November 2022

- Conducted in-person direct marketing to raise recurring donor commitments for non-profit organizations (e.g., WWF), staffing assigned outreach locations.
- Engaged the public directly, handled objections and negotiation, in a fully commission-based role.

Waiter — Bar Seven Up, Torre Annunziata, Italy

May 2022 – September 2022

- Independently managed dining room service at a venue serving breakfast, pastries, aperitifs, and cocktails, handling high-traffic periods (e.g., Sunday morning peaks).
- Maintained service quality under sustained high-volume conditions.

Textile Machine Operator (Winding Machine) — Totex S.r.l., Ottaviano, Italy

July 2021 – April 2022

- Independently supervised a winding machine producing yarn spools for textile manufacturing equipment.
- Monitored output quality and resolved technical issues (e.g., thread breaks) to maintain production standards.
- Managed average output of 1.5–2 pallets per shift.

PERSONAL PROJECTS — AI-DRIVEN PRODUCT DIRECTION

Led ideation, requirements definition, technical/business constraints, and strategic direction for software projects built in collaboration with AI agentic tools (Claude Code).

- ClipForge — Automated clipping tool for Twitch/Kick VODs and livestreams: transcription, highlight detection, vertical clip generation with captions, and TikTok publishing. Originally built for personal use, now in active development with commercial potential.
- AICOS (AI Company Operating System) — Multi-agent system for selling starter websites to small businesses (prospect research, content generation, email outreach, quality and safety controls).
- AI CV Tailor — SaaS product generating tailored resumes and cover letters, with a free tier and paid Pro subscription; publicly launched on Product Hunt.
- FileCompressor — Desktop application for compressing, extracting, and converting files, folders, and videos.
- Affiliate Marketing Pipeline — Content and affiliate-link system (Amazon Associates, eBay Partner Network) targeting Pinterest and TikTok.
